With the 650 men who stopped work yesterday, at the order of the Board of Walking Delegates, there are now about 1,000 men on strike, due to the opposition to Contractor Downey. The trades affected are carpenters, marblecutters, derrickmen, tilelayers' helpers, steamfitters, steamfitters' helpers, gasfit-

ters, messale-workers, plasterers, laborers, engineers and tin and sheet from workers. Unless the strike is settled to-day, which does not seem probable, there will be about 1.200 men on strike by to-morrow morning. The trouble is owing to Contractor Downey's relusal either to discharge the abinet-makers he had working as carpenters or to pay the cabinet-makers the same ages as the carpenters.

Downey had in his shop about seventy-right

cabinet-makers, who had been doing carpen-ters' work for cabinet-makers wages. The Carpenters' Union scale of wages calls this morning. Callph gave vent to his cus- for \$4.50 for an eight-hour day, while the omany three grunts, which the keeper takes cabinet makers receive \$3 a day for nine

The result, the carpenters claim, is that Keeper Ryan ished it out with a pitchfork, catinet-makers are rapidly becoming carpenkeeper Hyan dished it out with a pitchtors, and Calligh dragged it in again.

Then Calligh seemed to think that his keeper had not paid sufficient attention to his tollet this morning, and he to-seed alliberal supply of water over the unsuspecting Hyan.

This morning two palifuls of bran, with about a neck of apples cut up in it as a temptation, was placed under Calliph's nose, and he devouren't cagerity.

Testerday afternoon Calliph managed to swallow a head of cabbage. The indications are that he will be entirely well in a few days.

The sympathetic manner in which his wife and baby nose around his cage is very encouraging to Calliph, and the solicitous manner in which the other animais look upon her in which the other ani

will be affected by the strike.

The strikers have headquarters at 350 West Thirty-ninth street, and wore confident today that contractor Downey would be compelled to yield to their demands.

It was said that they could stop work on every job that Downey undertook. The four organizations of carpenters—the Amaignmated Society of Carpenters and Joiners, United Brotherbood of Carpenters and Joiners and Horderbood of Carpenters and Joiners—are combined in the fight against bowney, with the support of the abled trades of the Central Labor Union.

At Contractor Downey's office this forenoon an Evenisa Work or reporter was told that ninety cabinet-makers were at work in the shop, but that the carpenters—200 in number—were all on strike.

Mr. Downey's representative said that the firm was simply being made to suffer for a fight between the Cabinet-Makers and the Carpenters' unions.
